

## PHOTO & VOIDED CHECK

It is required by SignaPay that you include a minimum of two (2) photos with each application if applicable:

- **First photo** must clearly show the exterior of the business with proper DBA signage. The name of the business must be easily read in the photo. If more than one photo is needed to comply, please attach them all to this sheet.
- **Second photo** must show the inside of the business and merchandise displays that are typical of the type of business. Large stores may require more than one (1) photo.
- If it is a **level one** merchant the merchant can provide us with a Business Certificate instead of the photos.
- If it is a **level two** merchant the merchant can provide marketing materials or advertising instead of the photos.
