

INTRODUCING THE POWER OF AIRCHARGE®

State-of-the-Art Mobile Payment Processing Solutions

With AIRCHARGE from SignaPay, your business can accept payments wherever you are, at any time, from virtually any cell phone, PDA, or computer. AIRCHARGE software works with virtually all of the leading cellular carriers, and our compact, lightweight hardware is completely turnkey and simple to use from any location, or in multiple locations. Used together, AIRCHARGE products will immediately lower your processing fees, save you time, and boost your customer satisfaction.

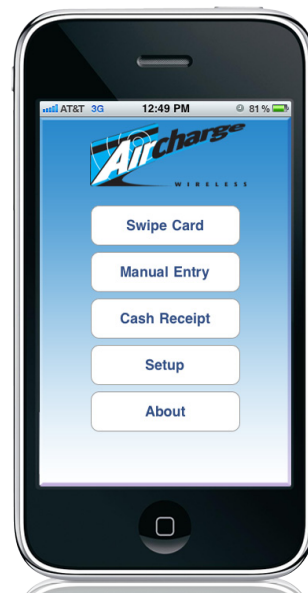

Immediate benefits

With AIRCHARGE, you swipe a payment card rather than enter it manually. The result: you pay lower fees and significantly reduce your chargeback risk. Plus, customers historically spend more with credit cards than with checks or cash. And because AIRCHARGE prints receipts and automatically batches at the end of the day, you eliminate trips back to the office to reenter data, and you further lower processing fees by batching daily.

Plus security and flexibility

AIRCHARGE complies with Visa®, MasterCard®, Discover® and American Express® regulations for printing and viewing credit card information, and meets federal laws regarding the printing of information on receipts.

And because the software is compatible with virtually every cellular network provider and computer manufacturer, you have the option to change equipment or providers whenever you choose.

All in the palm of your hand.

AIRCHARGE offers the AirBLUE Mini, a card swipe reader and printer all-in-one. The AirBLUE Mini also comes with a carrying case, protective case, three rolls of paper, a wall charger, and a USB cable that connects directly to your office or laptop computer. All AIRCHARGE units are backed by a one-year parts and labor warranty and 24/7 customer support.

Our robust reporting feature lets you view real-time transaction information whenever you need it, and export data into Microsoft Excel. Produce real-time records and reports, including individual unit tracking and duplicate receipts, or create your own customized reports to best suit your needs.

Use your cell phone for more than just talking.

With AIRCHARGE you can use your cell phone and computer to save time, lower fees and boost sales.

Plug in and power your payments with AIRCHARGE.
